

Skylight

The Hanger Bolt option provides a secure and permanent connection to the substructure.

Skyshield prevents someone from falling through the skylight.

Permanent

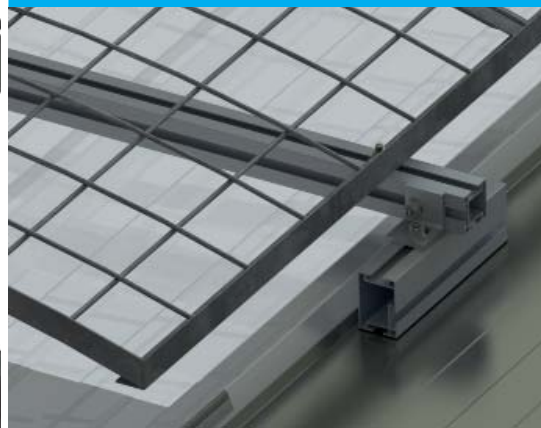

Protection

We can also offer a temporary solution for those occasions where you need to ensure the health and safety of your crew, while working on a roof with skylights.

Skyshield also prevents the skylight from being damaged.

Temporary

SKYSHIELD

The Console option provides a secure and permanent connection to the crown of the trapezoidal sheeting profile.

Skyshield further protects the people working below the roof.

Solution

Class B (ACR [M]001:2014)

Test for non-fragile of large element roofing assemblies
